About the Dept:

The Department of Epidemiology and Public Health was established in August 2016. It offers two years Master Degree in Epidemiology and Public Health. Provides teaching, research, and service activities that helps public health practitioner, health care providers, and researchers to develop and apply population based approaches to maintain and improve the public's health in the heartland and the nation.

Back ground: As the part of initiative to give the students a chance to interact with expert in the field of various domains of Epidemiology and Public Health, We the Department of EPH, CUTN, Thiruvarur proposes to conduct 2 day Workshop on the Topic "Health System Research Vis-A-Vis Clinical Trial - A gateway to Epidemiology.

We decided to bring the expert in clinical epidemiology and public health namely Dr Chandrakant Revankar to enlighten our students and the students of other disciplines, colleges to brush up their knowledge in aspect of Public Health & Epidemiology

Expected Outcome: The students will be able to get an overview about the Health System Research and Clinical Trials, above all qualitative and quantitative approach in disease investigation, which is need of the hour.
