

EQUIPMENT LIST

1. FACSCanto II Immunocytometry systems
2. Quantitative real-time PCR systems
3. -86oC ULT deep freezers
4. Class II biosafety cabinets
5. Gradient thermal cyclers
6. Hot air ovens
7. Water baths with wider temperature ranges
8. Shaking incubators
9. Cold rooms
10. Ultra-purification systems
11. Electronic balances
12. pH meters
13. Multi-channel micropipettes
14. Compound microscopes
15. Fluorescence microscopes
16. Phase-contrast microscopes
17. Dissection microscopes
18. Trinocular Stereo Zoom with Epi-fluorescence attachment & Digital color camera
19. Photosynthesis system with fluorescence and oxygen system
20. BACTEC Blood culture systems
21. Vertical Electrophoresis units
22. Horizontal Electrophoresis units
23. PCR
24. Aggregometer
25. ELISA Reader
26. Flame Photometer
27. CO2 Incubator
28. Phase contrast Microscope
29. Refrigerated Centrifuges
30. Gel Documentation System
31. Electrophoresis (Horizontal and Vertical)
32. UV- Vis Spectrophotometer
33. Ice flaker
34. Biosafety cabinet
35. Plant grow chamber
36. Autoclaves
37. Laminar air flow
38. Deep Freezer
