31st May 2022

CENTRAL UNIVERSITY OF TAMIL NADU

The Central University of Tamil Nadu is created by an act of parliament in 2009. It is located 8.kms away from Thiruvavur, Tamil Nadu, which is popularly known as the birth place of trinity of Carnatic music of the 18th century . The prime motto of CUTN is to provide higher education to those aspirants who are not well privileged and are from the weaker sections of the society. The University aims at the fashioning of an enlightened society founded on the relentless pursuit of excellence through innovation in teaching-learning process, interdisciplinary studies and research. Within the brief period since its inception, whether in the realm of academics or research, CUTN has established itself as a frontrunner in the pursuit of excellence. At present, the university has 12 schools and 27 departments.

ABOUT OUR DEPARTMENT

The Department of Commerce was started in 2017. Within the short span of time the department has emerged as one of the flag bearers of the University. The department offers two year full time Master of Commerce (M.com) programme under the choice based credit system. The main aim of the programme is to develop the young trained professionals to grab the opportunities available in the challenging market environment. The curriculum for this programme has been carefully designed in accordance with the changing needs of the society. The students are provided exposure through different types of academic and extra-curricular activities. The Department also offers full time and part time Ph.D. programme. The real strength of the department is its faculty members whose experience, expertise and research capabilities motivate the students to become an innovative thinker, problem solver and inspired leader for the corporate world.

SEMINAR NOTE

An important constituent of the Indian financial system is the Indian stock market. India is one of the fastest growing economy and the fifth largest economy of the world (Economic Survey 2019-20). It follows an open economy policy and is one of the largest recipients of FDI in major sectors. Over the past three decades, the Indian stock market has shown impressive growth, especially in terms of turnover rate, market capitalization, and the number of listed companies.

COVID-19 pandemic has had adverse effects on the global economy, increased uncertainty in stock markets.

Media reports claim that India was facing the problem of economic slow-down, the decline in demands, rise in unemployment, decline in consumption expenditure especially in the rural area and so on. With the downturn of economic status, India also got stuck in the fear of Omicron variant of COVID-19 and witnessed a major slowdown of economy during the first and second waves of Covid-19.

Covid-19 has reduced in economy's poor financial performance and thus affected the stock market's performance. For any economy, the stock market's performance plays a vital role and indirectly indicates the country's potential and shareholders' confidence.

As the threat of Covid-19 has reduces significantly, there is a need to analyze performance of Indian Security Market in its Vibrancy, efficiency and growth has a direct impact in the Indian Economy .

Hence, this two day seminar is found on the post covid-19 scenario of Indian Security Market comparing with pre- Covid pandemic and with Global Security Market

SEMINAR THEMES

- Impact of the COVID 19 outbreak on the Indian Financial Market, proxy by stock returns, the exchange rate between Indian rupee (INR) and the US Dollar (USD) and FDI/FII inflows.
