विश्वविद्यालय

ESTABLISHED BY AN ACT OF PARLIAMENT IN 2009

School of Education & Training DEPARTMENT OF EDUCATION

Ph.D. COURSE WORK SYLLABUS

PROGRAM CODE: EDURP01
OBE FORMAT

FROM 2022-2023 ACADEMIC YEAR

Sl.No	Contents	Page No
1	Program Outline	1 - 2
2	Vision, Mission, OBE Pattern	3 - 4
3	EDUCW01	5 - 11
4	EDUCW02	12 - 19
5	EDUCW03	20
6	EDUCW04	21 - 30

Regulations and Syllabus for Ph.D. Course Work (Full Time/ Part-Time)

1. Title:

The title of the course is Ph.D. coursework for Full Time/Part Time Ph.D. Scholars in Education.

2. Objectives

At the end of or during the course, the student will be able to:

- Explore educational research methods in detail.
- Explore different types of educational research.
- Explore the different statistical techniques for educational research.
- Apply statistical packages for data analysis.
- Conduct a detailed review of related literature.
- Reflect on the contemporary trends and discourses in Educational Research.
- Explore the different dimensions of research ethics and academic writing.

3. Duration

The duration of the program shall be one semester or two semesters, as prescribed in the Ph.D. ordinance of the university/ regulations for the Full Time and Part Time Ph.D. The coursework will consist of 14 credits.

4. Medium of Instruction

The medium of instruction shall be English.

5. Instruction

Instruction will be face-to-face/online for the Full Time/Part Time Scholars.

6. Course Outline

A minimum of four credits shall be assigned to one or more courses on Research Methodology which could cover areas such as quantitative methods, computer applications, research ethics and review of published research in the relevant field, training, fieldwork, etc. The credits assigned to the Ph.D. coursework shall be a minimum of 8 credits and a maximum of 16

credits. All candidates admitted to the Ph.D. programs shall be required to complete the course work prescribed by the DRC during the initial one or two semesters. There are four papers included in the coursework of the Ph.D. Program

7. Course Details

The course details are as follows;

S.No.	Course Code	Title of the course	Type of Course - Core / DSE / SEC / AECC/ others	Credits
1	EDUCW01	Contemporary Trends and Discourses in Educational Research	Core	4
2	EDUCW02	Advanced Research Methodology & Statistics	Core	4
3	EDUCW03	Pre-PhD Specialization	Core	4
4	EDUCW04	Research and Publication Ethics	Core	2
	Four courses			14 credits

8. Assessment

The assessment is continuous and comprehensive including internal and course end assessments. An absolute grading system is followed by the Central University of Tamil Nadu. Under this system, the marks are converted to letter grades based on pre-determined mark intervals. The marks infractions shall be rounded off to the nearest integer. The performances of students in each course are expressed in terms of marks as well as in Letter Grades.

S.No.	Range of Marks in %	Letter Grade	Grade Point	Description
1	90 to 100	O	10	Outstanding
2	80 to 89	A+	9	Excellent
3	70 to 79	A	8	Good
4	60 to 69	B+	7	Above Average
5	50 to 59	B	6	Average
6	Below 50	RA	0	Reappear
7		FA	0	Failure due to lack of attendance
8		AE	0	Absent in the End Semester Examination
9		AU	None	Audit Course

SYLLABUS

Ph.D. Education

A. Vision

Vision Statement of the Department

Excellence in Education

B. Mission

Mission Statements of the Department

M1	To provide Leaders in School and Teacher Education
M2	To develop and disseminate Innovative Best Practices in Teaching, Learning, and Research
M3	To integrate ICT Tools in Teaching, Learning, and Research

C. Program Educational Objectives (PEO)

After five years of successful completion of the program, the student will be able to

PEO1	Independently design and conduct research
PEO2	Integrates ICT tools in research
PEO3	Develops innovative practices
PEO4	Becomes a reflective researcher
PEO5	Practices ethics in research

D. PEO to Mission Statement Mapping

	PEO1	PEO2	PEO3	PEO4	PEO5
M1	x	x	x	x	x
M2	x	x	x	x	x
M3	x	x	x	x	x

E. Graduate Attributes of Ph.D. Program

1. **Disciplinary Knowledge:** Synchronize research methodology and statistics in doing research
2. **Communication Skills:** Possess clarity in conveying the ideas
3. **Critical Thinking:** Capacity to apply analytical thought in the research process
4. **Problem-Solving:** Participate in educational problem solving and apply the knowledge in day-to-day professional endeavors.
5. **Cooperation:** Appreciate collaboration and cooperation among stakeholders of education.
6. **ICT Skills:** Selecting and integrating appropriate ICT skills for professional development.
7. **Ethics:** Doing what is right for society
8. **Self-Directed Learning:** Developing autonomy and self-regulation in teaching-learning and professional development.
9. **Reasoning:** Ability to interpret and draw the conclusion from qualitative/quantitative data with open-mindedness
10. **Creativity:** Ability to produce new ideas
11. **Societal and Environmental Concern:** Performing an act or solving a problem with respect to societal and environmental concern
12. **Lifelong Learning:** Understands the need for learning and practices it throughout life

E. Program Outcomes (PO)F

On the successful completion of the program, the student will be able to

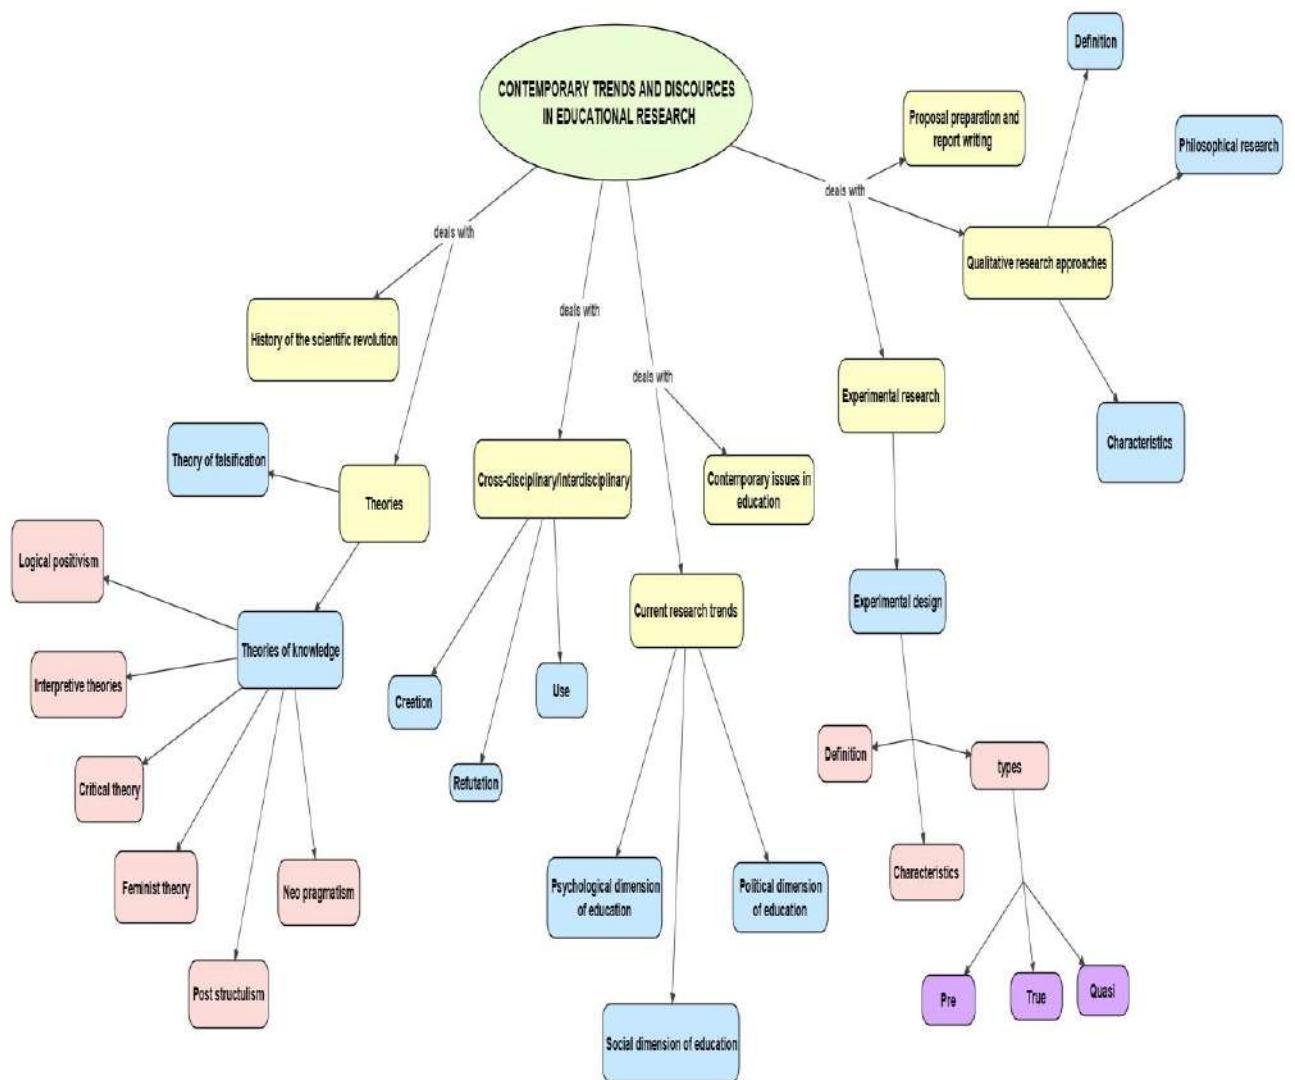

PO1	Identifies a research problem
PO2	Executes a research plan
PO3	Demonstrates problem-solving skill
PO4	Construct and validate appropriate tools for assessment
PO5	Communicates the findings of a research
PO6	Teachers at the tertiary level

G. PO to PEO Mapping

	PO1	PO2	PO3	PO4	PO5	PO6
PEO1	x	x	x	x	x	x
PEO2	x	x	x	-	x	x
PEO3	x	x	x	x	x	x
PEO4	x	x	x	x	x	x
PEO5	x	x	x	x	x	x

PhD					
Course Code	Course Name	L	T	P	Credits
EDUCW01	Contemporary Trends and Discourses in Educational Research	3	1	0	4
Internal	40	External	60	Total	100

Concept Map

a. Course Outcome (CO)

On the successful completion of the course, the student will be able to

	Course Outcome	Level
CO1	Identify the contemporary issues in educational research	Understand
CO2	Interpret various dimensions of educational research	Apply
CO3	Investigate the methods of quantitative and qualitative data	Analyze
CO4	Develop a sample research report which is valid, ethical, and plagiarism free	Create
CO5	Appreciate the practical consequences of theories for research and change in schools	Skill

b. Syllabus

Units	Content	Hrs.
I	History of the scientific revolution- Theory of falsification-Theories of Knowledge- Logical positivism, interpretive theories, critical theory, feminist theory, poststructuralism, and neo-pragmatism- Applications to Curriculum, Instruction, and Teacher Education.	18
II	Cross-disciplinary/interdisciplinary knowledge - its creation, refutation, and use-Correspondence between disciplinary knowledge and knowledge as represented in schools- Social science perspectives on factors outside and inside school systems that shape policy and influence both the nature of policy problems and the form of educational solutions.	18
III	Current research trends in the psychological, social, and political dimensions of Education- Contemporary Issues in Education and allied disciplines and research concerns- Assessment of current issues in the educational domain as they relate to historical reforms- Analysis of multiple resources and perspectives on current issues.	18
IV	(a) Experimental Research- Experimental Design-Definition, Characteristics, Methods of Control -Types of Experimental Design: Pre, True and Quasi-experimental design- Factors affecting Internal and External Validity of Experimental design (b) Qualitative Research Approaches –Definition, Characteristics-Ethnography, Phenomenology, Naturalistic Enquiry, Historical & Case Studies, Philosophical research - Analysis of Qualitative Data - Content analysis (c) Proposal preparation and Report Writing.	18

c. Mapping of Program Outcomes with Course Outcomes

	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	x	x	x	x	-	x	x
CO2	x	x	x	x	x	x	x
CO3	-	x	x	x	x	x	x
CO4	x	x	x	x	x	x	x
CO5	x	x	-	x	x	x	x

d. Evaluation Scheme

	CO1	CO2	CO3	CO4	CO5	Total
Internal	8	8	8	8	8	40
External	12	12	12	12	12	60
Total	20	20	20	20	20	100

e. Mapping Course Outcome with Internal Assessment (40 Marks)

	CO1	CO2	CO3	CO4	CO5
Assignments	2	2	-	-	2
Seminar	-	-	2	2	-
Test	5	5	5	5	5
Attendance	1	1	1	1	1
Total	8	8	8	8	8

f. Mapping Course Outcome with External Assessment (60 Marks)

Category	CO1	CO2	CO3	CO4	CO5
Part – A (Objective - 10 x 1 = 10 marks)	2	2	2	2	2
Part – B (Short Answer - 5 x 4 = 20 marks)	10	10	-	-	-
Part – C (Essay- 3 x 10 = 30 marks)	-	-	10	10	10
Total	12	12	12	12	12

g. Rubric for Assignments

Sl. No	Criteria	100%	75%	50%	25%	0%	Relation to COs
1	Content 50%	Ideas are detailed, well developed, supported with specific evidence & facts, and examples	Ideas are detailed, Developed and supported with evidence and facts mostly specific.	Ideas are presented but not particularly developed or supported;	The content is not sound	Not attended	CO1, CO2, CO3, CO4
2	Organization 50%	Includes title, introduction, statement of the main idea with illustration and conclusion.	Includes title, introduction, statement of main idea and conclusion.	organizational tools are weak or missing	No organization	Not attended	CO1, CO2, CO3, CO4

h. Rubric for Seminar

Sl. No.	Criteria	100%	75%	50%	25%	0%	Relation to COs
1	Knowledge and Understanding 50%	Exceptional knowledge of facts, terms, and concepts	Detailed knowledge of facts, terms, and concepts	Considerable knowledge of facts, terms, and concepts	Minimal knowledge of facts, terms, and concepts	Not Attended	CO3, CO4, CO5
2	Presentation 50%	Well Communicated with logical sequences, examples, and references	Communicated with sequences	Just Communicated	No coherent communication	Not Attended	CO3, CO4, CO5

i. Model Question Paper

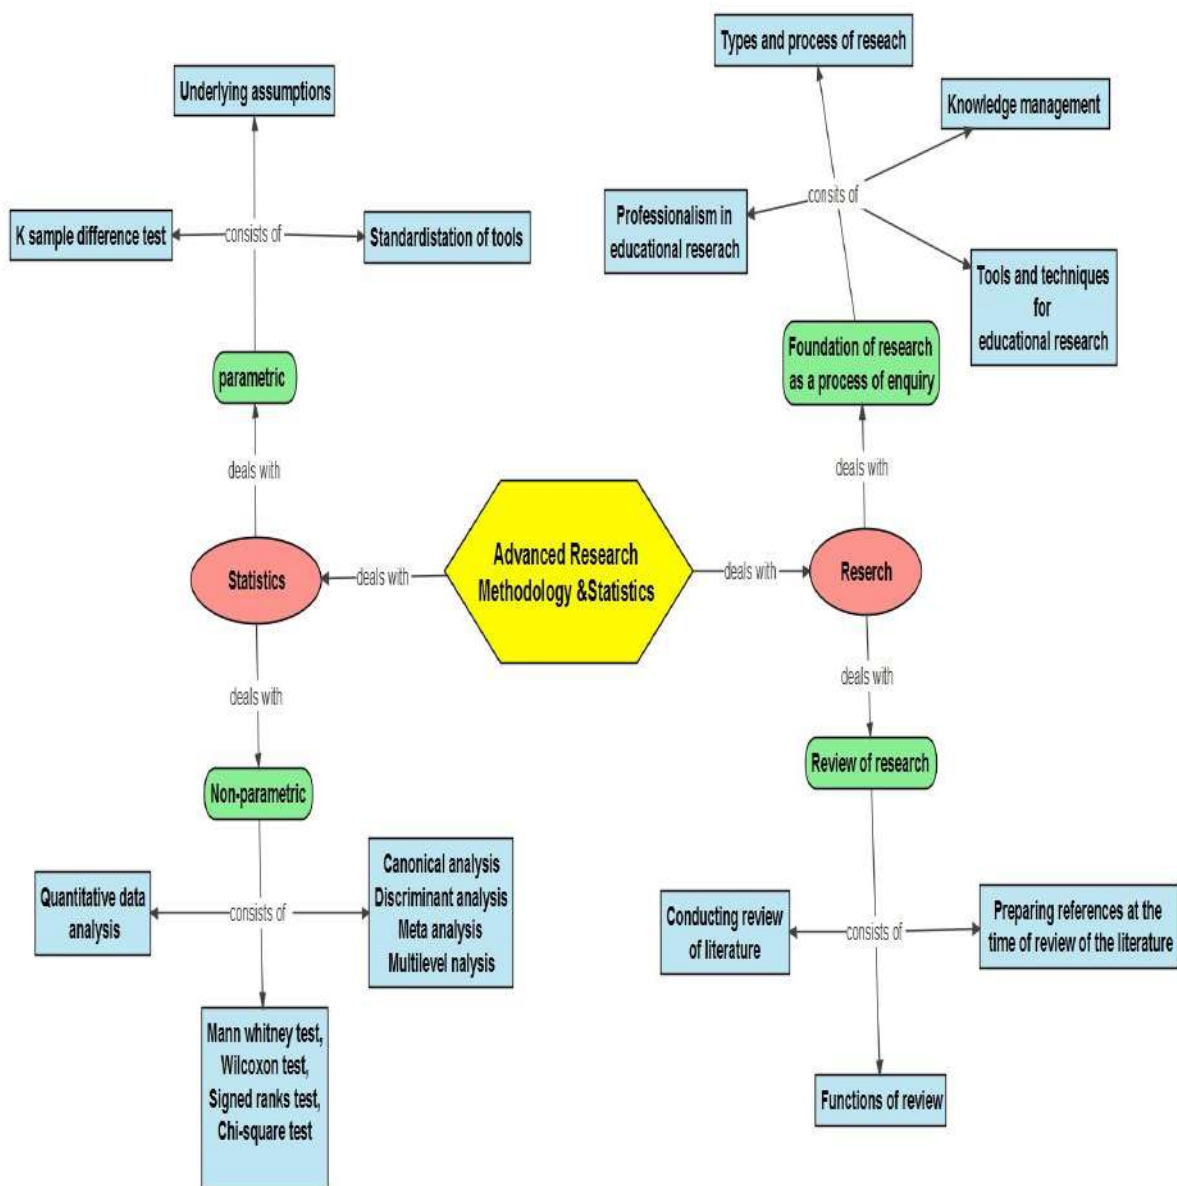

Sl. No.	Model Questions	Specification	Level
	Part – A: Objective Type Multiple choice 10 x 1 = 10		
1	Which of the following theory aims to understand the nature of gender inequality? a. Theory of falsification b. Feminist theory c. Critical theory d. Interpretive theory	Recognize	Remember
2	Which of the following principles is not correct regarding pragmatism? a. Pragmatism accepts any definite/eternal truth or principle b. According to pragmatists truth is man-made c. Pragmatists do not support spiritualism d. Pragmatists stress equally acts and thoughts	Recognize	Remember

3	<p>The ability to speak to (if not from) a broad spectrum of knowledge and experience is known as</p> <ul style="list-style-type: none"> a. Intellectual dexterity b. Strong sense of critical thinking c. Metacognition d. Intellectual autobiography 	Identify	Remember
4	<p>Ethical analysis is the application of _____ analysis to ethical issues.</p> <ul style="list-style-type: none"> a. Disciplinary b. Interdisciplinary c. Integrated d. Intellectual 	Recall	Remember
5	<p>The research method which focuses on establishing a casual relationship with controls among variables – independent, moderator, and dependent is called</p> <ul style="list-style-type: none"> a. Ex post facto method b. Survey method c. Case study method d. Experimental method 	Recognize	Remember
6	<p>Experimental researches are aimed to _____</p> <ul style="list-style-type: none"> a. Establish association between variables b. Describe variables c. Study the application theory d. Study trend analysis 	Recall	Remember
7	<p>In the true experimental research design</p> <ul style="list-style-type: none"> a. No control over external variables b. Less control on external variables c. Control on external variables by randomization d. No use of randomization 	Identify	Remember
8	<p>Which of the following is characteristic of qualitative research?</p> <ul style="list-style-type: none"> a. Generalization of the population b. Random sampling c. Unique case orientation d. Standardized tests and measures 	Recognize	Remember
9	<p>Phenomenology has its disciplinary origins in:</p> <ul style="list-style-type: none"> a. Philosophy b. Anthropology 	Recognize	Remember

	<ul style="list-style-type: none"> c. Sociology d. Many disciplines 		
10	<p>_____ is used to describe cultural scenes or the cultural characteristics of a group of people.</p> <ul style="list-style-type: none"> a. Phenomenology b. Ethnography c. Grounded theory d. Instrumental case study 	Recall	Remember
	<p>PART – B Short Answer</p> <p>The answer should not exceed 200 words 5 x 4 = 20</p>		
11	Write short notes on feminist theory and its application in teacher education.	Explain	Understand
12	What do you understand by Cross-disciplinary and interdisciplinary knowledge? How you can apply it in your research?	Employ	Apply
13	What are the contemporary Issues in Education? comment in your own words.	Comment	Skill
14	What are the Factors affecting the Internal and External Validity of Experimental design explain how you can control it?	Interpret	Analyze
	<p>PART – C Essay Answer</p> <p>The answer should not exceed 400 words 3 x 10 = 30</p>		
15	What broad topic you have decided on for your research and what reasons for selecting that topic	Propose	Skill
16	Review of related literature is essential or not for conducting research? If yes give reasons	Appraise	Skill
17	Write a detailed note on qualitative research approaches	Describe	Understand

Ph.D. Coursework					
Course Code	Course Name	L	T	P	Credits
EDUCW02	Advanced Research Methodology & Statistics	2	1	1	4
Internal	40	External	60	Total	100

Concept Map

a. Course Outcome (CO)

On the successful completion of the course, the student will be able to

	Course Outcome	Level
CO 1	Explain the process and procedure involved in the research	Understand
CO 2	Discover the statistical tools and techniques used in research	Analyze
CO 3	Differentiate the univariate and bivariate methods of statistical analysis in research.	Understand
CO 4	Use SPSS, MS Excel to analyze data, and interpret results obtained during the analysis .	Apply
CO 5	Develop a detailed review of related literature	Create

b. Syllabus

Units	Content	Hrs.
I	Explore data processing packages for quantitative and qualitative data analysis Revisit the foundations of research as a process of inquiry and basics of educational research - types and process of research - tools, and techniques for education research - knowledge management - professionalism in educational research.	16
II	Review of Research Concept, Purpose, and Importance -The functions of review; a) Conceptual frame of reference, b) Status of research, c) Research Approach, Method, Instrumentation, and Data Analysis, d) Probability of success and significance of findings, e) Stating the definitions, assumptions, limitations and hypotheses, f) Selection of Tools and Design - Conducting a review of the literature - Listing key words, checking preliminary sources, Reading and noting selected references - Preparing references at the time of review of the literature.	16
III	Scales of Measurements Nominal, Ordinal, Interval & Ratio - Parametric & Nonparametric tests -Underlying assumptions - considerations for deciding the appropriateness of parametric tests –Tools and techniques- standardization of tools- the concept of Hypothesis testing - K-Samples difference tests - One way ANOVA, Post Hoc tests of varying powers -Two ways ANOVA with equal and unequal cell size - One & Two ways ANCOVA of equal & unequal cell size- Correlation analysis.	16
IV	Non - Parametric statistics Mann Whitney test, Kruskal Wallis test, Wilcoxon test, Signed Ranks test, Chi-Square test- Canonical Analysis - Discriminant Analysis- Meta-	16

	Analysis, Multilevel Analysis - Significance level v/s magnitude of effect size. (b) Qualitative Data Analysis.	
	<p>Practical Work: Hands-on experience in data processing packages for quantitative and qualitative data analysis.</p>	16
	<p>Tasks and Assignments:</p> <ul style="list-style-type: none"> · Conducting a review of research in the area of research interest under the guidance of the supervisor. · Preparing review of a Ph. D. thesis. · Presentation of the research proposal · Publish/Prepare a paper for publication in any of the reputed national or international journals. <p>References:</p> <ul style="list-style-type: none"> · Audi, Robert (213). i. Model Question Paper

Sl. No.	Model Questions	Specification	Level
	Part – A: Objective Type Multiple choice 10 x 1 = 10		
1	What is the major attribute of Correlation Analysis? a. Association among variables b. Difference among variables c. Regression among variables d. Variations among variables	Identify	Remember
2	How is random sampling helpful? a. Reasonably accurate b. An economical method of data collection c. Free from personal biases d. All of the above	Recall	Remember
3	What is the main role of education research? a. To upsurge one's social status. b. To increase one's job prospects. c. To augment one's personal growth. d. To help an applicant in becoming a renowned educationalist.	Recall	Remember
4	What does the longitudinal research approach deal with? a. Long-term research b. Short-term research	Identify	Remember

	<p>c. Horizontal research</p> <p>d. None of the above</p>		
5	<p>Evaluation Research is concerned with _____</p> <p>a. How well are we doing?</p> <p>b. Why are we doing?</p> <p>c. What are we doing?</p> <p>d. None of the above</p>	Recognize	Remember
6	<p>The main aim of the scientific method in the research field is to _____</p> <p>a. Improve data interpretation</p> <p>b. Confirm triangulation</p> <p>c. Introduce new variables</p> <p>d. Eliminate spurious relations</p>	Identify	Remember
7	<p>A researcher is interested in studying the prospects of a particular political party in an urban area. So, what tool should he prefer for the study?</p> <p>a. Rating Scale</p> <p>b. Interview</p> <p>c. Questionnaire</p> <p>d. Schedule</p>	Identify	Remember
8	<p>How do judge the depth of any research?</p> <p>a. By research title</p> <p>b. By research duration</p> <p>c. By research objectives</p> <p>d. By total expenditure on research</p>	Recall	Remember
9	<p>Which of the following is not the method of Research?</p> <p>a. Survey</p> <p>b. Historical</p> <p>c. Observation</p> <p>d. Philosophical</p>	Identify	Remember

10	The authenticity of a research finding is its a. Validity b. Objectivity c. Originality d. All of the above	Identify	Remember
PART – B Short Answer The answer should not exceed 200 words 5 x 4 = 20			
11	Write short notes on a. Focus group discussion b. Application of parametric and non-parametric statistics c. Type -1 and Type -11 Errors d. Observation e. Format of the research report	Define	Understand
12	Differentiate between thesis writing and writing a scholarly article. Explain the general format of a thesis research report with necessary details.	Differentiate Define	Understand
13	What is Experimental Research Design? Explain the concept and characteristics of true Experimental design.	Explain	Understand
14	An Intelligent test was given to 600 students. Their mean and SD were found to be 110 and 17 respectively. Assuming the distribution obtained to be normal. How many students fall in the IQ ranges between 90 and 120?	Identify	Apply
PART – C Essay Answer The answer should not exceed 400 words 3 x 10 = 30			
15	Write a research proposal for the research problem of your choice	Write	Create
16	When is a non-parametric test used? Explain any two non-parametric tests used in inferential statistics.	Explain Discuss	Understand
17	Describe experimental design in detail	Describe	Analyze

Ph.D. Coursework					
Course Code	Course Name	L	T	P	Credits
EDUCW03	Pre Ph.D. Specialization	3	1	0	4
Internal	40	External	60	Total	100

The research supervisor formulates the syllabus with four credits from the proposed area of research. The research supervisor offers choices thereby converting the Ph.D. syllabus to a CBCS pattern. The assessment needs to be done by the respective research supervisor.

PhD					
Course Code	Course Name	L	T	P	Credits
EDUCW04	Research and Publication Ethics	1	0	1	2
Internal	40	External	60	Total	100

Concept Map

a. Course Outcome (CO)

On the successful completion of the course, the student will be able to

	Course Outcome	Level
CO1	Discuss the ethics in the conduct of scientific research	Understand
CO2	Utilize indexing and citation databases, open access publications, research metrics	Apply
CO3	Identify research misconduct and predatory publications	Analyze
CO4	Infer the ethical framework and principles	Analyze
CO5	Explore plagiarism tools for a valid and ethical research report	Skill
CO6	Develop a valid and ethical research report	Create

b. Syllabus

Units	Content	Hrs.
	<i>THEORY:</i>	
I	RPE 01: Philosophy And Ethics 1. Introduction to Philosophy: definition, nature and scope, concept, branches 2. Ethics: definition, moral philosophy, nature of moral judgments and reactions	3
II	RPE 02: Scientific Conduct 1. Ethics with respect to science and research 2. Intellectual honesty and research integrity 3. Scientific misconducts: Falsification, Fabrication, and Plagiarism 4. Redundant Publication: duplicate and overlapping publications, salami slicing 5. Selective reporting and misinterpretation of data	5
III	RPE 03: Publication Ethics 1. Publication Ethics: definition, introduction, and importance 2. Best practices/ standards-setting initiatives and guidelines: COPE, WAME, etc 3. Conflicts of Interest 4. Publication misconduct: definition, concept, problems that lead to unethical behavior and vice versa, types 5. Violation of publication ethics, authorship, and contributorship 6. Identification of publication misconduct, complaints, and appeals 7. Predatory publishers and journals	7
	<i>PRACTICE</i>	
IV	RPE 04: Open Access Publishing 1. Open access publications and initiatives 2. SHERP/ RoMEO online resource to check publisher copyright and self-archiving policies 3. A software tool to identify predatory publications developed by SPPU 4. Journal finder/ journal suggestion tools viz. JANE, Elsevier Journal Finder, Springer and Journal Suggester, etc.	4

V	<p>RPE 05: Publication Misconducts</p> <p>A. Group Discussions (2 hrs)</p> <ol style="list-style-type: none"> 1. Subject-specific ethical issues, FFP, authorship 2. Conflicts of interest 3. Complaints and appeals: examples and fraud from India and abroad <p>B. Software Tools (2 hrs)</p> <p>Use of plagiarism software like Turnitin, Urkund, and other open-source software tools</p>	4
VI	<p>RPE 06: Databases and Research Metrics</p> <p>A. Databases (4 hrs)</p> <ol style="list-style-type: none"> 1. Indexing databases 2. Citation databases: Web of Science, Scopus, etc. <p>B. Software Tools (3 hrs)</p> <ol style="list-style-type: none"> 1. Impact Factor of a journal as per Journal Citation Report, SNIP, SJR, IPP, Cite Score 2. Metrics: h-index, g-index, i10 index, altmetrics 3. National Academies Press 	7
	<p>TASKS AND ASSIGNMENTS:</p> <p>The internal assessment will be based on the following:</p> <ol style="list-style-type: none"> 1. Explore the SHERPA/ RoMEO online resources to check publisher copyright and self-archiving policies. 2. Investigate the software tools to identify predatory publications developed by SPPU. 3. Group discussions on subject-specific ethical issues, falsifications, fabrications, plagiarism. 4. Critically analyze a research article to identify publication misconduct and ethical issues. 5. Presentation on examples of fraud publications from India and abroad 6. Paraphrase a given text in the student's own words without repeating the same words in the original text and use the open-source software tools like Turnitin and Urkund to check for plagiarism. 7. Discussions on the varieties of journal finders and identifying their target journal finder. 8. Quizzes and Assignments on the topics Impact Factor of a journal as per Journal Citation Report, SNIP, SIR, IPP, Cite Score, Metrics: h-index, g index, i10 index, altmetrics.

c. Mapping of Program Outcomes with Course Outcomes’

	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	-	x	x	x	x	-	x
CO2	x	x	x	x	x	-	x
CO3	x	x	x	x	x	x	x
CO4	x	x	x	x	x	x	x
CO5	x	x	x	x	x	x	x
CO6	x	x	x	x	x	x	x

d. Evaluation Scheme

	CO1	CO2	CO3	CO4	CO5	CO6	Total
Internal	5	7	7	5	9	7	40
External	10	10	10	10	10	10	60
Total	15	17	17	15	19	17	100

e. Mapping Course Outcome with Internal Assessment (40 Marks)

	CO1	CO2	CO3	CO4	CO5	CO6
Assignments	-	2	-	3	2	5
Seminar/ Presentations	-	-	3	2	5	-
Group Discussions	-	-	4	-	2	2
Tests/ Quiz	5	5	-	-	-	-
Total	5	7	7	5	9	7

f. Mapping Course Outcome with External Assessment (60 Marks)

Category	CO1	CO2	CO3	CO4	CO5	CO6
Part – A (Objective - 10 x 1 = 10 marks)	1(2)	1(1)	1(1)	-	1(6)	-

Part – B (Short Answer - 5 x 4 = 20 marks)	4(2)	4(1)	4(1)	-	4(1)	-
Part – C (Essay- 3 x 10 = 30 marks)	-	5(a)	5(b)	10	-	10
Total	10	10	10	10	10	10

g. Rubric for Assignments

Sl. No.	Criteria	100%	75%	50%	25%	0%	Relation to COs
1	Content 50%	Ideas are detailed, well developed, supported with specific evidence & facts, and examples	Ideas are detailed, Developed and supported with evidence and facts mostly specific.	Ideas are presented but not particularly developed or supported;	content is not sound	Not attended	CO2, CO4, CO5, CO6
2	Organization 50%	Includes title, introduction, statement of the main idea with illustration and Conclusion.	Includes title, introduction, statement of main idea and Conclusion.	organizational tools are weak or missing	No organization	Not attended	CO2, CO4, CO5, CO6

h. Rubric for Seminar

Sl. No.	Criteria	100%	75%	50%	25%	0%	Relation to COs
1	Knowledge and Understanding 50%	Exceptional knowledge of facts, terms, and concepts	Detailed knowledge of facts, terms, and concepts	Considerable knowledge of facts, terms, and concepts	Minimal knowledge of facts, terms, and concepts	Not Attended	CO3, CO4, CO5,

2	Presentation 50%	Well Communicated with logical sequences, examples, and references	Communicated with sequences	Just Communicated	No coherent communication	Not Attended	CO3, CO4, CO5,
---	--------------------------------	--	-----------------------------	-------------------	---------------------------	--------------	----------------

i. Rubric for Group Discussions

Sl. No.	Criteria	100%	75%	50%	25%	0%	Relation to COs
1	Participation in Discussion	Provided many good ideas for the unit development; inspires others; clearly communicated desires, ideas, personal needs, and feelings.	Participated in discussions; shared feelings and thoughts.	Listened mainly; on some occasions, made suggestions.	Seemed bored with conversations about the unit; rarely spoke up and ideas were off the mark.	Does not participate in discussion	CO3, CO5, CO6
2	Conduct	Does not dominate the discussion. Student challenges ideas respectfully, encourage and supports others to do the same.	Participates regularly in the discussion but occasionally has difficulty accepting challenges to his/her ideas or maintaining a respectful attitude when challenging others' ideas.	Often dominates the discussion or disengages from the process.	Resorts to ad hominem attacks when in disagreement with others.	Does not participate in discussion	CO3, CO5, CO6
3	Listening	Always actively attends to what others say as evidenced by regularly building on, clarifying, or responding to their comments.	Usually listens well and takes steps to check comprehension by asking clarifying questions	Does not regularly listen well as indicated by the repetition of comments or questions presented earlier	Fails to listen or attend to the discussion as indicated by the repetition of comments and questions	Does not participate in discussion	CO3, CO5, CO6

4	Preparedness and Content Knowledge	Always prepared for class with assignments and required materials Accurately expresses foundational knowledge pertaining to issues raised during the discussion	Usually prepared with assignments and required materials Expresses basic foundational knowledge pertaining to class discussions	Seldom prepared with assignments and required materials Expresses limited foundational knowledge pertaining to class discussions	Consistently unprepared for class Expresses no relevant foundational knowledge	Does not participate in discussion	CO3, CO5, CO6
---	---	--	--	---	---	------------------------------------	---------------

j. Model Question Paper

Sl. No.	Model Questions	Specification	Level
	Part – A: Objective Type Multiple choice 10 x 1 = 10		
1	Which among the following is not a kind of plagiarism? a. Patch Writing b. Untainted Plagiarism c. Indirect Plagiarism d. Direct Plagiarism	Recognize	Remember
2	In the capacity of a researcher, how can you solve the problems that exist in society? a. Eradicate unethical people from society. b. Request the research institute to form a body of members for solving the problems. c. Participate in the activities of a suitable NGO to help in fighting the problems. d. None of the above.	Implement	Apply
3	The final aim of every research is a a. Ethical research b. Research report c. Sponsorship d. Future research	Identify	Remember
4	Copying the work of other authors in whole pieces is called as a. Self-plagiarism b. Indirect plagiarism c. Direct plagiarism d. Patch writing	Define	Remember
5	‘International Standard Book Number (ISBN)’ is a _____ digit unique numeric commercial machine-readable identification number meant for monograph publications. a. Eight	Memorize	Remember

	b. Ten c. Eleven d. Thirteen																																																								
6	Ethics in research lays the bounds of discipline for a researcher. a. True b. False	Paraphrase	Understand																																																						
7	A hypothesis that is tested for possible rejection is known as: a. Positive hypotheses b. Absolute hypotheses c. Null hypotheses	Define	Remember																																																						
8	One of the useful skills for a researcher is: a. The ability to understand the research b. The ability to write an effective research report																																																								
9	Which of the following options most appropriately explains ‘Research Ethics’? a. It states how to write a research report flawlessly. b. It gives the methodology of researching within social norms c. It governs the prevention of plagiarism d. It provides a common set of dos and don’ts of conducting an ethical research	Explain	Understand																																																						
10	The interplay of imagination and innovation on a researcher’s part creates a unique research report. a. True b. False	Relate	Remember																																																						
	PART – B Short Answer The answer should not exceed 200 words 5x4= 20																																																								
11	a) “Ethics differ from morality” – justify your answer with examples (or) b) Discuss how a researcher can overcome duplicate publications.	Justify	Skill																																																						
12	a) What is research integrity? As a researcher, what precautions will you take to sustain research integrity? (or) b) As a researcher in social science, discuss the ways and means of protecting the data of participants in your research.	Implement	Apply																																																						
13	a. Calculate the h and g index for the following data of the author Egghe <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Rank</th> <th>Total Citation</th> <th>Rank</th> <th>Total Citation</th> <th>Rank</th> <th>Total Citation</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>47</td> <td>9</td> <td>16</td> <td>17</td> <td>12</td> </tr> <tr> <td>2</td> <td>42</td> <td>10</td> <td>16</td> <td>18</td> <td>12</td> </tr> <tr> <td>3</td> <td>37</td> <td>11</td> <td>15</td> <td>19</td> <td>12</td> </tr> <tr> <td>4</td> <td>36</td> <td>12</td> <td>13</td> <td>20</td> <td>11</td> </tr> <tr> <td>5</td> <td>21</td> <td>13</td> <td>13</td> <td></td> <td></td> </tr> <tr> <td>6</td> <td>18</td> <td>14</td> <td>13</td> <td></td> <td></td> </tr> <tr> <td>7</td> <td>17</td> <td>15</td> <td>13</td> <td></td> <td></td> </tr> <tr> <td>8</td> <td>16</td> <td>16</td> <td>12</td> <td></td> <td></td> </tr> </tbody> </table> (or)	Rank	Total Citation	Rank	Total Citation	Rank	Total Citation	1	47	9	16	17	12	2	42	10	16	18	12	3	37	11	15	19	12	4	36	12	13	20	11	5	21	13	13			6	18	14	13			7	17	15	13			8	16	16	12			Compute	Apply
Rank	Total Citation	Rank	Total Citation	Rank	Total Citation																																																				
1	47	9	16	17	12																																																				
2	42	10	16	18	12																																																				
3	37	11	15	19	12																																																				
4	36	12	13	20	11																																																				
5	21	13	13																																																						
6	18	14	13																																																						
7	17	15	13																																																						
8	16	16	12																																																						

	<p>b. (i) Calculate the i10 index for the above table. (ii) Calculate the Impact Factor of the journal, “Nature” for the year 2019 given that the number of publications in 2017 and 2018 is 850 and 950 and the total citations in 2019 are 50000.</p>		
14	<p>a. Discuss one unethical behavior in social science research and a solution to overcome the same (or) b. As a researcher, how will you identify the publication misconduct?</p>	Discuss	Understand
15	<p>a) Why is research paper publication necessary during the research period? b) How databases and research metrics are useful in evaluating the publication?</p>	Interpret	Skill
<p>PART – C Essay Answer The answer should not exceed 400 words 3 x 10 = 30</p>			
16	<p>Critically analyze (in 200 words) any one of the following articles provided in the respective link. A. https://drive.google.com/file/d/1iK97xxLK4YVGYDfuEj1q3EIBbl_OrX1/view?usp=sharing (Or) B. https://drive.google.com/file/d/18AmMOIzIFnK4Mu78HNfn6hUNCDik_vs8/view?usp=sharing</p>	Analyze	Skill
17	<p>Paraphrase any one of the following paragraphs in your own words without repeating the same words in the original text (plagiarism).</p> <div style="border: 1px solid black; padding: 10px; margin: 10px 0;"> <p><i>Teachers play a determinant role in ensuring that classroom diversity translates into social inclusion and delivers positive impacts for students (Farmer et al. 2019). However, teachers have many competing demands and often little training or support to achieve this task. While the benefits of classroom diversity are many, teachers may not have the tools to ensure that classroom diversity translates into successful social inclusion and student learning (Smylie 1999). Given the increasing demands placed on teachers to teach diverse students effectively across varying levels of intellectual differences, teachers often report feeling ineffective at their job and subsequent low self-efficacy (Curchod-Ruedi et al. 2013; Pang and Sablan 1998; Smylie 1999; Tucker et al. 2005). Furthermore, the negative impacts of teacher burnout and low self-efficacy on students have been well established (Jennings and Greenberg 2009; Osher et al. 2010; Piekarska 2000; Reinke, Keith, and Stormont 2013). As we consider how to increase student engagement in positive, diverse classroom environments, we must additionally prioritise teacher wellbeing in our response.</i></p> </div> <p style="text-align: center;">(Or)</p>	Paraphrase	Understand

	<p><i>Teachers play a determinant role in ensuring that classroom diversity translates into social inclusion and delivers positive impacts for students (Farmer et al. 2019).
