

Central University of Tamil Nadu and ChargePal Pty Ltd Ink MOU for Collaborative Advancements

Neelakudi, Thiruvarur District, Tamil Nadu

The Central University of Tamil Nadu (CUTN) and Charge Pal Pty Ltd officially signed a Memorandum of Understanding (MOU) during a ceremony held at CUTN. The event was presided over by the Vice Chancellor, Prof. M Krishnan, with Mr. Bruno Lambla, co-founder of ChargePal (joined Virtually)

Prof R Thirumurugan, Registrar of CUTN, and Paramesh Gunasekaran from ChargePal participated in the exchange of the MOU, symbolizing a commitment to transparency, cooperation, and shared goals.

This MOU marks a significant step towards fostering collaboration in various domains, with a focus on training, research, consultancy, workforce software support, data engineering solutions, and knowledge sharing. The collaboration aims to create synergies that will drive innovation and development in both academic and corporate spheres.

The partnership will facilitate joint initiatives in short-term and long-term training programs, promoting research endeavors in areas of mutual interest. CUTN and Charge Pal commit to organizing and participating in academic events, including symposia, conferences, workshops, and short-term courses, providing a platform for the exchange of ideas and knowledge. The MOU emphasizes the promotion of faculty, staff, and student training for teaching and skill development, ensuring a robust learning environment.

Prof. M Krishnan, Vice Chancellor of CUTN, expressed his enthusiasm for the collaboration, stating, "This MOU represents a commitment to excellence in education, research, and technology. Through this partnership with ChargePal, we (CUTN) aim to nurture a dynamic learning ecosystem that prepares our students for the challenges of the future."

Dr. Gunasekaran, Academic Council Member of CUTN along with Senior faculty members of CUTN, including Dr. Parameshwaran, Prof. T. Sengadir Dr. Chandra Mouli P.V.S.S.R., Prof. Srinivasan, and Prof. S. Nagarajan, were present during the MOU signing ceremony.

ChargePal Pty Ltd, headquartered in Sydney, NSW, Australia, is a product-based startup specializing in the development of smart charging technologies for electric vehicles.
